

Expert Alliance

Q. What do a roof collapse in Phoenix, a turbine breakdown in Belgium, a shipment of French wine damaged in transit on the Atlantic and a fire destroying an entire manufacturing facility in Argentina have in common?

A. You've seen it all. And so have we.

For over 30 years, the forensic engineers at Envista Forensics have delivered certainty to clients across the globe. We do this by determining cause and responsibility, identifying the nature and extent of damages and providing a full range of forensic engineering and recovery solutions. In addition to our full time staff located in more than 30 offices worldwide, the Envista Forensics Expert Alliance provides clients with a complete global forensic engineering solution.
